

TOP SECRET

18 September 1967

MEMORANDUM FOR: Deputy Director for Science and Technology

OXCART mission BX6723 was flown on 17 September 1967 against targets of interest in North Vietnam. This was the eleventh BLACK SHIELD mission to date.

The aircraft departed Kadena AB at 0225Z and accomplished two runs over North Vietnam. The mission duration was 3+55 hours. Recovery at Kadena AB was normal. Pilot reports target weather was better than briefed. Preliminary reports indicate [redacted] activity on either run. Camera systems appeared to function properly. We expect good results from mission take.
